Remember, the system replaces a part of engine engine oil. And that's plenty.The System uses John Deere Turf-Gard¢ÂÂ¢Â Oil. Using John Deere Turf-Gard¢ÂÂ¢Â Oil ensures you are using the exact oil specified by John Deere engineers.Testing. Testing. Testing. Thanks to thousands of hours of rigorous and extensive testing, you can feel confident your engine will run for years to come.1The John Deere Easy Change¢ÂÂ¢Â 30-Second Oil Change System is available on E120, E130, E150, E160, E170 and E180 Lawn Tractors today.2Compared to similar V-Twin engine models that do not have the John Deere Easy Change¢ÂÂ¢Â 30-Second Oil Change System. That includes equivalent Deere 2017 models and 2018 models without the System. What is new with John Deere Riding Lawn Equipment? We are excited about the exclusive John Deere Easy Change¢ÂÂ¢Â 30 second oil change system. Exclusive to John Deere and only available on certain models of the new 100 Series Lawn Tractors. These tractors are designed for ease of use for both operation and maintenance. The John Deere Easy Change¢ÂÂ¢Â System (¢ÂÂÂEasy Change¢ÂÂÂ) allows the user to easily complete the recommended engine oil and filter maintenance in 30 seconds. What is this new oil change system? We changed the oil change. The all-in-one oil and oil filter system gives the owner the ability to change a portion of the oil and the filter in less than 30 seconds. What happens to the rest of the oil in the engine when the Easy Change system is replaced? The Easy Change system replaces .8 quart of oil. The remaining oil in the engine is refreshed by the charge of new oil included in the replacement Easy Change system. Combined with 40% more engine oil capacity, improved filtration and cooler running temperatures which help extend oil life, it is no longer necessary to remove and dispose of all the oil in your engine during service. What makes the Easy Change system unique from other filters? It is not just a filter. It is a newly developed technology system that A new "filter" to arrive with oil and allows you to remove an existing filter and the contaminants inside without tools and without making a mess. In addition to the filter, the technology inside the container and the engine makes it possible. The models with the exchange oil system use a completely synthetic filter that has more skills to trap and contain contaminants. The larger surface of the easy change container behaves like a radiator that helps oil to remain fresh. Does the easy change system reduce the duration of the engine in any way? The models of Prato tractors of the John Deere 100 series, with and without easy changes, are specified for the same life and are rigorously tested according to the same standards to ensure that the life of the tractor meets expectations. Can I add the easy modification system to an existing tractor? Since this system also requires unique functionality inside the engine, the easy change system cannot be added to an engine that was not equipped with it in the factory. Can I change all the oil if I choose it? You could if I wanted it. There is an oil drain cap. It is not necessary for maintenance. How many times do I need to change the easy change container? Every 50 hours or once a year. Prato tractors in 100 series with and without the easy modification system have the same maintenance program. What kind of oil is it recommended? We only recommend John Deere Turf-Gardã ¢ â € Žâ ¢ 10W30 Oil. The Easy Change container is pre-founded with John Deere Turf â € â € Žâ ¢ 10W30 oil. How to recycle the old oil? Many recycling programs of the local government, authorized retailers, automatic repair stations and Fora car spare parts and recycled the filters and oil used. I ever need to add oil? Yes.
